Awarding Grants to NGOs in China

Target Sourcing Services/AMC (TSS/AMC) awards many grants in China each year to improve schools and give students living in poverty a brighter and more productive future. One grant has helped establish libraries in 20 primary schools that serve students and communities in Shaanxi Province. Partnering with Plan International, TSS/AMC funded the three-year project that provides books, educational and training materials, and basic school supplies to help improve the learning environment for students in need. More than 3,000 students and members of the community benefit from access to the library and its resources.
