

安全生产活动

阿科玛是一家化学公司,在40多个国家开设有90家工厂,除了训练员工穿戴必要的安全防护和掌握操作特殊化工厂设备必须的质量保证外,公司于2004年开始在中国引入了它的安全在行动活动。通过这一活动,员工们强烈地意识到正确的操作和行动对他们本人和其他人都

安全在行动通过播放录有不安全行为的影像的方式结合小组讨论,使职工明白并深刻记住正确的操作行为。在工作场所张贴月度工伤报告及不安全行为发现报告,提醒大家时刻铭记安全观念,努力创造无事故记录。在活动中还发放阿科玛安全在行动的宣传册和纪念品,提醒职工和参观者增强安全意识。

Safety in Action

Arkema, a chemical company that operates more than 90 plants in 40 countries, is serious about ensuring the safety of its employees and visitors. In addition to training employees to wear the necessary protective clothing and qualify for certificates to operate special chemical plant equipment, Arkema introduced its Safety in Action program in China in 2004. Through this program, employees' safety awareness has been enhanced. Employees are keenly aware that correct operation and actions will benefit both themselves and others.

The Safety in Action program consists of training through videos that illustrate unsafe or incorrect practices, combined with group discussions among employees that allow them to articulate the correct actions. Monthly incident/injury reports are posted to remind everyone to strive for a perfect record. Posters are placed throughout the workplace, and brochures and souvenirs with the Arkema Safety Vision remind employees and visitors alike to be safety conscious.
