

慈善范围的项目

自2001年以来,和睦家医院(UFH)与美国教育和健康基金会(AEHF)及一些当地私人收养机构合作为贫困孤儿提供救济。和睦家通过它的志愿医务人员走访孤儿院寻找可以救助贫困的孩子。和睦家医院捐赠每年医疗服务收入中的1%支持各项慈善活动。和睦家也捐赠医药用品,资助国际专家来中国进行慈善工作,并为他们提供活动场所,行政方面的支持和使用医院内部系统的计算机及电话线路。募捐也是和睦家医院的另一项活动。

和睦家医院的慈善范围的项目不仅使中国孤儿和社会福利院受益;而且—

- 通过对公共卫生的教育,在儿童福利机构树立了提高效益的意识
- 树立在医疗方面有效的典范
- 在职工间提倡志愿行动
- 提供机会参与社区的慈善活动

和睦家的员工在北京和上海志愿服务并去孤儿院现场自愿服务。

Charitable Outreach Program

Since 2001, United Family Hospital (UFH) has partnered with the American Education and Health Foundation (AEHF) and various local private foster care facilities to provide relief to orphans in need. UFH provides support for the programs of the AEHF through volunteer medical staff who visit orphanages to identify children in need and donates one percent of annual revenues in healthcare services in their facilities. UHF also donates medical supplies, sponsors international specialists traveling to China for charity work, and provides operating space and administrative support, as well as computer access and phone lines within the hospital system. Fundraising is another UFH activity.

UFH's Charitable Outreach Program not only benefits Chinese orphans and caregivers in social welfare institutes throughout China, it also—

- Promotes a sense of empowerment through education on public health issues in children's welfare institutions
- Models effective approaches to healthcare
- Develops a sense of volunteerism among employees
- Provides opportunities for community involvement in charitable activities

UFH staff volunteer at facilities in Beijing and Shanghai as well as on site at orphanages.
